SUMMARY

Software Engineer with **2 years** of experience building React-based web applications using **ReactJS**, **Redux**, **JavaScript (ES6+)**, **Material UI**, and REST APIs. Skilled in developing reusable UI components, optimizing frontend performance, and building intuitive and user-centric web applications.

EDUCATION

Sipna College of Engineering and Technology
Bachelor of Engineering | CGPA: 8.3/10

Aug 2019 – May 2023
Amravati, Maharashtra

TECHNICAL SKILLS

Languages: JavaScript (ES6+)
Frontend: ReactJS, Next.js, Redux, React Flow, HTML5, CSS3, Material UI (MUI), Responsive Web Design
Backend: Node.js, Express.js, FastAPI
Databases: MongoDB, Firebase Firestore
Tools: Git, GitHub, Postman
Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems

EXPERIENCE

Hyperminds Tech Private Limited
Software Engineer

Oct 2024 – Present
Pune, Maharashtra

- Developed **25+** reusable and responsive UI components using **ReactJS**, **Redux**, and **Material UI (MUI)**, improving development efficiency and application consistency.
- Optimized visual workflow editors using **React Flow**, reducing ETL pipeline creation time and providing a simple, user-friendly interface for workflow management.
- Integrated **FastAPI** REST APIs with frontend applications to support ETL workflow execution, scheduling, and real-time data processing, improving application performance and reliability.
- Resolved production issues by debugging frontend applications and optimizing ETL workflows, reducing execution time by **30%** while improving application stability.
- Delivered **20+** client-requested feature enhancements and integrated an AI-powered chatbot using **Flowise AI**, enhancing workflow usability and reducing manual support effort.

PROJECTS

Sigma CRM — Sales, Marketing & Support Platform | ReactJS, React Query, Material UI, FastAPI | [Live](#) **Present**

- Built frontend modules for an **enterprise CRM** supporting deal pipelines, campaign automation, ticketing, and analytics dashboards.
- Implemented a visual workflow builder with **7 trigger types**, nested conditions, and **10+ automated actions** to automate sales and marketing workflows.
- Crafted marketing interfaces for campaign management, dynamic audience segmentation, email templates, and delivery analytics.
- Engineered bulk import/export with column mapping and batch processing, simplifying enterprise data migration.
- Enabled scalable CRM operations through **RBAC**, **React Query** caching, real-time updates, and webhook integration.

Skyshift — ETL & Data Integration Platform | ReactJS, React Flow, FastAPI | [Live](#)

Jan 2025

- Supported frontend features for an **enterprise ETL platform** with scheduled and on-demand data pipelines.
- Designed visual workflow editors using **React Flow** for pipeline creation, validation, and execution.
- Integrated **FastAPI** REST APIs with enterprise connectors including **Salesforce**, **Snowflake**, **Databricks**, **HubSpot**, **GitHub**, **Oracle**, and **MSSQL**, supporting cross-platform data integration.

Personal Finance Tracker | ReactJS, JavaScript, Firebase | [GitHub](#)

Sept 2024

- Created a personal finance tracker for monitoring income, expenses, and real-time account balance.
- Leveraged **Firebase Authentication**, **Firestore**, and interactive charts to provide secure data management and spending insights.
